Certified Accurate Pedometers

Professional Stopwatches & Clocks and Timers

AE190XLG

AE140XLE

AX740BL

AX605

Dear Customer,

I am pleased to bring you our latest catalog. This collection of product sheets gives you all the information you need about each product or series, in a standardized layout for easy reference and comparison. Inside, you'll find a product to meet every need and budget, all with the quality and accuracy you expect from ACCUSPLIT. During the past year, individuals and businesses alike have come to realize the importance of pedometer accuracy and reliability. We have responded by developing 21 new Certified Accurate pedometers and seven new Activity Wellness Programs, all backed by our guarantee of quality: our 5-Year, No Proof of Purchase Warranty. Four new stopwatches and a new timer give you even more choices from "The Stopwatch Company of the World."

We have designed this catalog to make it easier to find the products you're looking for. Each sheet includes a function and feature chart so you can compare products and families. We've organized our pedometers and Activity Wellness Programs by pedometer engine and accuracy rating. Stopwatches are organized by category, so whether you're looking for economical alternatives or our top-of-the-line, exclusive models, you can zero in on the choice that's right for you.

We've also included the information pedometer buyers need to make institutional purchasing decisions. Check out our available models and their accuracy ratings. We can often accommodate special requests, so if you don't see the model you want, just ask. And of course, we can customize your pedometers with your logo, so your message "walks" all day, every day, wherever your employees or customers go.

We appreciate your past business, and look forward to another year providing you with the highest quality, most accurate, and best engineered pedometers and stopwatches available on the market today.

W. Ron Sutton
"Mr. Pedometer"
President and CEO
ACCUSPLIT, Inc.

AH100 Pedometer Series

The Most Accurate, Highest Quality Pedometers Available Anywhere!

ACCUSPLIT is proud to bring you three completely new memory pedometers with the highest accuracy rating available on the market today. Manufactured in Japan especially for ACCUSPLIT, these pedometers draw on the power of the brand new Kato-Sutton 10 (KS10) PedometerEngine™. The KS10 Step Sensor was developed by the world's foremost pedometer expert Y. Kato and ACCUSPLIT's own W. Ron Sutton. The AH190M28 has memories for steps, distance, and calories for the current day, previous seven days, and totals. It also includes an activity timer. The AH120M9 has step count memories for each of the past seven days, plus today's steps, and a grand total. The AH120MAG is a steps-only model with enormous MAGNUM display digits—our largest ever! All three pedometers are packed with quality features such as a sturdy metal belt clip, long-lasting Lithium battery, and Very Large display digits. All three are backed by ACCUSPLIT's 5-Year, No Proof of Purchase Warranty.

AH100 Series Packages Include:

- AH100 series Pedometer
- 24-page AAS400 Activity Wellness Program and Pedometer Use Guide
- Access to online wellness support program
- 3-Way Pedometer Leash System

AE100XLG

ACCUSPLIT
OFFICIAL Pedometer of the PGA TOUR

New! AE100XLG Enhanced DigiWalkerXL Pedometer Series

Featuring the JW200 PedometerEngine™—Tested "Most Accurate"

Since 1983, ACCUSPLIT has worked with the Kato family of Japan to develop pedometer technology such as the JW200 (DigiWalkerXL) PedometerEngine™ step sensor. ACCUSPLIT's NEW AE100XLG Series gives you the JW200 step sensor you know and trust, but with many new features and improvements! New features include Extra Large display digits, a steel clip, and super-tough polycarbonate case, and integrated leash slots. We've also added exciting new functions, such as Memory, Goal Tracking, and an Automatic Activity Timer.

Ask

Mr. Pedometer:

Q. Why buy this pedometer?

A: 1. To get certified accuracy from a pedometer used in research since 1995

2. To use goal tracking to measure and motivate

3. Steel clip

AE100XLG Packages Include:

AE100XLE

New! AE100XLE Enhanced DigiWalkerXL Pedometer Series Especially for Schools

Featuring the JW200 PedometerEngine™—Tested "Most Accurate" and Used in Research for Over 10 Years.

ACCUSPLIT's NEW AE100XLE Series gives you the JW200 step sensor (also used in DigiWalker pedometers) you know and trust, but with many new features and improvements! For this special Educational series, the stride length (for units with distance) and weight (for units with calories) are fixed. Therefore, students will all get the same amount of credit for distance walked and calories burned, and there is no special setup required! Additional new features include Extra Large display digits, an Automatic Activity Timer, a steel clip and super-tough polycarbonate case, plus integrated leash slots.

AE100XLE Packages Include:

- AE100XLE Series Pedometer
- Access to online wellness support program

AAS100

ACCUSPLIT®
OFFICIAL PEDOMETER OF THE PGA TOUR

AAS100T Teacher's Kit

AAS100S1 Student Kit

Optional: The AAS100 materials can also be ordered with pedometers and shipped in this handy storage case.

AAS100T and AAS100S1 Classroom Activity Wellness Program

Teach Lifelong Activity Wellness in the Classroom with this Comprehensive Package!

(Grades 4-12) ACCUSPLIT's Classroom Activity Wellness Program combines Robert Sweetgall's 15 years of activity teaching experience and W. Ron Sutton's 20 years of pedometer measurement experience in a dedicated classroom program. The program includes all the tools for teaching a lifetime wellness unit.

Robert Sweetgall, author of 16 books and walking expert, has created a dynamic teacher's guide and a unique and complete student guide called "Smart Stepping." Sweetgall incorporates many features that offer creative and fun ways to teach and learn Health and Wellness, Math, and Geography. Included in the pack is a map of the United States to track your class as they recreate Sweetgall's 50-state walk across America, and a CD that contains reprintable materials.

Ron Sutton has selected the ACCUSPLIT Eagle 140S Pedometer, which has Step, Distance and Stopwatch functions, as the perfect tool to match the lessons in the student and teacher guides. However, this program can be successfully matched up with any ACCUSPLIT pedometer. This classroom wellness program is sure to bring walking and activity wellness learning to a whole new level.

AAS100S1 Student Kit Includes:

- **STUDENT GUIDE.** 48-page student guide with log to record progress, and the perfect companion to the Teacher's Guide. It includes the amount of physical activity needed for healthy lifestyles, the best type of physical activities, the 1-Million Footstep Challenge, smart games, great activities and fitness facts.
- **FOOTSTEP CHALLENGE STICKER SHEET.** Helps each student see his or her progress, and motivates through concrete reinforcement.

AAS100S1 Student Kit

FREE access to online Activity Wellness Center to track and compare your progress to your activity and weight management goals.

"Set up an affinity group for your students or peers online. Then, compare your daily step activity average to your group's average. Go to AccuSTEP10000.org and start today."

AAS100T Teacher's Kit

AAS100T Teacher's Kit Includes:

- **TEACHER'S GUIDE.** 144-page book includes the concept of stepping, getting physical with a pedometer, preventing obesity in children, surviving school stress, starting a wellness program, getting physical with families and curriculum, games, projects, activities and more, plus a copy of the Student Guide.
- **28-MILLION FOOTSTEP CHALLENGE POSTER.** A poster style map of the U.S. to track the class as they recreate Sweetgall's 50-state walk across America.
- **STRIDE MEASURING TAPE.** Helps the students establish their walking stride for input into the stride function of their pedometer for accurate distance measurement.
- **CD ROM.** CD-ROM contains reproducible charts and posters.
- **FOOTSTEP CHALLENGE STICKER SHEET.** Heart sticker sheet shows each student's progress. A sample sheet is included with the AAS100T.

Ask Mr. Pedometer

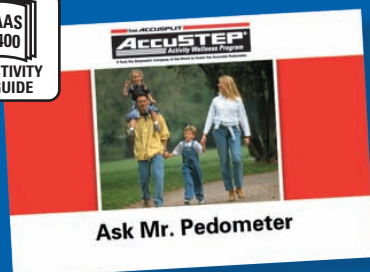

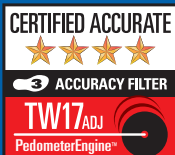

Q: Why buy this program?

- A:**
1. To use a structured program created specifically for classrooms by a recognized expert
 2. To use certified accurate pedometers
 3. To use our free online Buddy Support System

Robert Sweetgall is America's leading advocate of walking for wellness. Since 1982, he has walked across America seven times, including a remarkable 11,208 mile walk through all 50 states in 365 days. The author of 17 books on walking and wellness, Robert Sweetgall has motivated over one million people worldwide through his entertaining presentations. His "Walking Wellness" curriculum is used by thousands of schools from kindergarten to college level. To quote the Wall Street Journal, "When Sweetgall walks, people listen."

AE1700 Ultra Thin Pedometer Series

The Thinnest Pedometer Available!

ACCUSPLIT is proud to bring you four models of an elegant new pedometer series. The new AE1700 series includes a personal sensitivity adjustment that works with the certified accurate TW17 Pedometer Engine for unparalleled accuracy. A 3-Step Display Delay function prevents recording false steps. Perhaps the most exciting thing about these pedometers, however, is their incredible slim case! Our design criteria resulted in the thinnest pedometer you'll see. The metallic faceplates add a touch of elegance, while the white AE1790WPR with pink ribbon includes a donation to breast cancer initiatives with each pedometer purchased. All four models feature massive MAGNUM display digits, and of course, all are backed by ACCUSPLIT's 5-Year, No Proof of Purchase Warranty.

AE1700 Packages Include:

- AE1700 Series Pedometer
- 24-page AAS400 Activity Wellness Program and Pedometer guide
- Access to online wellness support program
- 3-Way Pedometer Leash System

Ask Mr. Pedometer:
Q. Why buy this pedometer?

- A. 1. The thinnest pedometer made; with metallic or pink ribbon faceplate

AE2700

ACCUSPLIT
OFFICIAL Pedometer of the PGA TOUR

AE2700 Ultra Thin Bulk Pedometer Series

The Thinnest Pedometer Anywhere—Bulk Packaging Available!

ACCUSPLIT is proud to bring you four models of an elegant new pedometer series, offered exclusively in bulk packaging.

Institutional buyers will appreciate the compactness, convenience, and low prices we can offer bulk customers purchasing "in quantity." The new AE2700 series includes the certified accurate TW17 Pedometer Engine for outstanding accuracy. A 3-Step Display Delay function prevents recording false steps. Perhaps the most exciting thing about these pedometers, however, is their incredible slim case! Our design criteria resulted in the thinnest pedometer you'll see. All four models feature massive MAGNUM display digits, and of course, all four are backed by ACCUSPLIT's 5-Year, No Proof of Purchase Warranty.

AE2700 Packages Include:

- AE2700 Series Pedometer
- Access to online wellness support program
- 3-Way Pedometer Leash System

AE1600 Super Thin Pedometer Series

Five Exclusive New Pedometer Models with Memory

Get exclusive memory functions with these five exciting new pedometers, in a new low-profile slim case. All models feature an automatic activity timer that records your daily "active time," a 5-Step Display Delay Function that prevents false steps from being tallied, and Magnum XL digits for easy readability. Individual models also feature:

- AE1620: A simple, steps only unit.
- AE1622M4: Goal Display Function allows you to set a daily step goal, then see your progress toward the goal displayed as a percentage. Two step memories show you today's steps, plus a running total.
- AE1640M4: Includes two step memories plus distance counter.
- AE1690: Shows steps, distance, and calories burned.
- AE1691M17: 17 memories show your steps, distance, calories burned, and activity time for today, week to date, last week's total, and last week's daily average.

AE1600 Packages Include:

- AE1600 Series Pedometer
- 24-page AAS400 Activity Wellness Program and pedometer guide
- Access to online wellness support program
- 3-Way Pedometer Leash System

AE1100 Series Pedometer

Accurate, Economical Pedometers

Looking for an inexpensive, quality pedometer? Look no further than the AE1100 Series! Extremely easy to operate, these million-step pedometers are great for those just starting out with a walking program. The 5-Step Display Delay function blocks "false steps" from being tallied, increasing the accuracy of these economical pedometers. With the AE1120M2, you can record up to 1 million steps in the TOTAL memory, or reset the memory each month. It's up to you. Simple, but accurate and with an extra memory to record a week's, a month's, even three months' step count, this pedometer is a great value. Backed by the ACCUSPLIT 5-Year, No Proof of Purchase Warranty.

AE1100 Packages Include:

- AE1100 Series Pedometer
- 24-page AAS400 Activity Wellness Program and pedometer guide
- Access to online wellness support program
- 3-Way Pedometer Leash System

AX120 Step Activity Pedometers

Economical, Simple 10,000 Steps-A-Day Pedometers

This new series of pedometer offerings is designed to give you more value in the package. We've made our highly popular AX120 pedometer available in retail packaging for the first time, in two configurations offering very good value for the money. The AX120DELUXE package includes a set of five colorful faceplates, which are easily changeable with the twist of a coin. The AX120DUAL, or "Buddy Pack," gives you a second pedometer at half price. The buddy system is the best way to keep motivated to achieve your goals—with a buddy pack, you can both have the same pedometer and keep each other motivated. Each AX120 unit is a quality pedometer, backed with ACCUSPLIT's 5-Year, No Proof of Purchase Warranty. It took ACCUSPLIT, the Official Pedometer of the PGA TOUR, to come up with these innovative new products to help you reach your wellness goals!

AX120 Packages Include:

- AX120 Pedometer
- 24-page AAS400 Activity Wellness Program and Pedometer use guide
- Access to online wellness support program
- 3-Way Pedometer Leash System

AX120DUAL Package Also Includes:

- A SECOND AX120 Pedometer (buddy unit)
- A second 3-Way Pedometer Leash System

AL Beginner Pedometer Series

Entry-Level Pedometers for the Institutional Market

When money is tight, and your goal is simply to get going with a step activity program, the AL20 and AL70 may be the right choice. Regarded as “beginner” pedometers, these units are extremely economical when purchased in quantity (minimum order 5,000). Perfect as premiums and other give-away programs, these pedometers can help generate excitement and interest in stepping programs. You might find similar units elsewhere, but you won’t find ACCUSPLIT’s commitment to customer satisfaction, or our knowledge of pedometers.

AE1100, AE1600, AX120

ACCUSPLIT
OFFICIAL Pedometer of the PGA TOUR

Institutional Pedometer Program

Quality Pedometers Offered in Standard Bulk Packaging,
to Save You Money

Are you a teacher or corporate wellness program manager?

If you don't need blister packaging for retail presentation,
ACCUSPLIT can offer you a wide variety of pedometers
in compact, highly economical packaging.

• We stock these items in our California warehouse, so we
can ship immediately.

• Each unit comes with a pre-attached leash (to prevent
accidental loss) and its own mini-instruction sheet.

If you have multiple groups of people using pedometers, you'll
want our pedometers packaged with plastic compartment
storage boxes. Each box has dividers to neatly store and protect
your pedometers, plus a hinged lid with latch. Each box holds
up to 36 pieces of our slimmer pedometer models, or 18 standard
thickness models. Best of all, the boxes are included FREE with
your purchase of at least 12 bulk pedometers! The prices are even
more attractive if you order 12 or more sets.

Bulk Packaged Pedometers Include:

- One 3-Way Pedometer Leash System and one
instruction sheet per piece.

Packaging options:

1. Each pedometer in a small white unit box.
2. Pedometers with plastic compartment storage boxes
(12 or more pieces).

Bulk Pedometers	Weight	Length	Width	Depth
1 pedometer in unit box	0.31 lbs	3 in	2 in	2 in
12 pedometers with plastic compartment storage boxes (MMSTORAGE24)	1.4 lbs	11 in	8 in	1.5 in

Ask

Mr. Pedometer:

Q. Why buy this program?

- A.**
1. Our quality and accuracy
add up to real value!
 2. Always in stock for quick
delivery.
 3. Use certified accurate
pedometers.

A601X PRO SURVIVOR™ Stopwatches

The Best Value PE Stopwatch on the Market!

It's no wonder our A601X sells so well—it is simply the best value PE stopwatch on the market! Cased in ACCUSPLIT's Exclusive "X" Case, this is our most popular and durable stopwatch for basic timing needs. With its distinctive, ergonomic design, the "X" Case is immediately recognizable to anyone involved in elite sports, lauded for its ruggedness, shock-resistance and water-resistance. Special Million Cycle switches operate cleanly, precisely, and reliably each and every time you use the stopwatch. Large digits for easy viewing on the field, track, or by the pool add to the appeal of these stopwatches. The A601X features Split Timing, Time and Date functions. It is available in five solid and five translucent case colors. Our Pro Survivor stopwatches have a battery life of 1.5 years, and come with our 5-Year, No Proof of Purchase Warranty.

A601X Packages Include:

- Pro Survivor Series A601X Stopwatch, Lanyard, Battery and Instructions.

PROFESSIONAL STOPWATCH SERIES

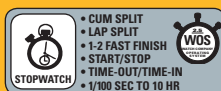

DEDICATED CLASSIC STOPWATCHES

S3CL

S3E

S3E/CL

New! S3E and S3CL SURVIVOR™ Stopwatches

A Simple, Dedicated Stopwatch Circuit Especially for Lane and Place Timing

If you need a dedicated stopwatch for Event or Split Timing, ACCUSPLIT has several terrific options. For maximum simplicity and ease of use, these watches provide only the most essential timing functions, with the quality and utility you've come to expect from ACCUSPLIT. The ACCUSPLIT S3E and S3CL are Event and Split Stopwatches, respectively. They feature the same dedicated stopwatch circuit as is found in the professional S602 series, but at a lower price for those with less demanding expectations for the Stopwatch Case. Our S3 series stopwatches have a battery life of 1.5 years, and come with our 5-Year, No Proof of Purchase Warranty.

SURVIVOR™ Series Stopwatches

Chronograph Stopwatches for Professional, Affordable Timing—Great for Physical Education!

These economical stopwatches all work on the industry standard Watch Operating System (WOS). Each watch has economical features and functions designed to give you professional timing in an affordable manner. They are great for general timing, especially for Physical Education and Single Event. The S1XL is very modestly priced, but with an ergonomic case design. The S2XL is easy to use, and is also available in seven solid and translucent colors. Like the others, it features Split Timing, Time, Date, Day of Week and Alarm. It's a great low cost stopwatch for basic timing needs. The S3 models feature a more traditional, round case. Our Survivor stopwatches have a battery life of 1.5 years, and come with our 5-Year, No Proof of Purchase Warranty.

PROFESSIONAL HEART RATE MONITOR

AE920 Heart Rate Monitor

A Strapless Heart Rate Monitor for Walkers

This easy to use strapless heart monitor, worn on the wrist, is perfect for individual or school activity programs. Unlike other heart monitors, this new device allows you to retrieve your heart rate at any time, at the touch of a button, while you use the other stopwatch and training features and functions. Great for school activities, allowing more time for learning and activity and less time suiting up students with cumbersome straps.

ACCUSPLIT, a leader in stopwatches and pedometers for over 30 years, is proud to add this new training and educational device to its already powerful line of stopwatches and pedometers. You can count on ACCUSPLIT quality, engineering, and accuracy from all our products, as well as our well known support and service.

Features:

- Heart rate at touch of silver buttons
- Heart rate displayed in 5 seconds on demand
- Advanced detection and processing for EKG accurate heart rate computation
- Comfortable all day—no chest strap needed!
- Time of Day • Time of Day Alarm • Stopwatch • Timer

AE920HRM Package Includes:

- AE920HRM wrist-worn Heart Rate Monitor
- Battery
- Instruction Manual
- Storage Tin

Packaging Information:

AE920 Heart Rate Monitor	MSRP	Notes	UPC

AX PRO Memory Series Professional Stopwatches

The Premier Timing Piece for Elite Level Sports—in our Exclusive, Industry Best Stopwatch Case

ACCUSPLIT AX PRO Memory Series stopwatches are professional timing devices with significantly increased functionality going beyond our tremendously successful Classic X (WOS) Series.

PRO FEATURES

Extremely large digits for easy viewing on the field, track, or by the pool add to the appeal of these stopwatches. Accurate to #1 second per 15 minutes, as you would expect in professional stopwatch. All are covered by ACCUSPLIT's 5-Year, No Proof of Purchase Warranty.

EXCLUSIVE "AOS" 4.5 OPERATING SYSTEM

For these new watches we have revamped our exclusive ACCUSPLIT Operating System (AOS). Based on 33 years' experience, AOS is designed to give coaches, athletes, and timers the most precise timing available. New for 2007 is the Twin Left-Right button operation feature. Whatever your preferences, the watch will let you start, split and reset using the fingers you want. As before, AOS watches have One Button Rapid Split/Reset (2 sec).

"X" CASE

All AX PRO Series Stopwatches are cased in ACCUSPLIT's Exclusive "X" Case. With its distinctive, ergonomic design, the "X" Case is immediately recognizable to anyone involved in elite sports, lauded for its ruggedness, shock-resistance and water-resistance. Special Million Cycle switches operate cleanly, precisely, and reliably each and every time you use the stopwatch.

BACKLIGHT

The AX740 is also available with two different types of backlights. The EL Backlight (EL) gives 5 seconds of light for each button push. The Super Backlight (SBL) stays on for 10 minutes with each push of the backlight button.

AX PRO Memory Packages Include:

- AX PRO Memory Series Stopwatch, Lanyard, Battery and Instructions.

Ask
Mr. Stopwatch:

The ACCUSPLIT brand began in 1972 with the first handheld digital stopwatch (recently lauded as one of the "Top 100 Gadgets of All Time").

ACCUSPLIT has built its stopwatch heritage both on technological innovation and on leadership in the sports world. Ambassador Steve Simmons, Vice President of Sports Marketing and Relationship Management, fosters that leadership in Track and Field. Team leader of the '92 Olympic Track and Field Team, Assistant Manager of the '80 and '84 Olympic teams, and Co-Marshall of the '96 Olympic Games in Atlanta, Simmons is one of only six men in U.S. history to serve on three Olympic staffs. Simmons and ACCUSPLIT also support collegiate Track and Field, hosting the ACCUSPLIT Relay Awards honoring the year's fastest relay teams and coaches at the NCAA Outdoor Championship Meet.

AX PRO

AX PRO Series Professional Stopwatches

Dedicated Stopwatches Designed for Sports and Industry—Cased in our Exclusive, Industry Best Stopwatch Case

CHOOSE FROM 5 GREAT NEW MODELS!

- AX605 is great for Event Timing, and comes in three models: regular, with momentary backlight, and with Super (continuous on) Backlight.
- AX625 has a two-line display for dual (lap and split) timing.
- AX705, our Ultimate Lane Timer, is your choice if you want error-free timing. You can't mess it up!

PRO FEATURES

Extremely large digits for easy viewing on the field, track, or by the pool add to the appeal of these stopwatches. Accurate to #1 second per 15 minutes, as you would expect in professional stopwatch. All are covered by ACCUSPLIT's 5-Year, No Proof of Purchase Warranty.

EXCLUSIVE "AOS" 4.5 OPERATING SYSTEM

For these new watches we have revamped our exclusive ACCUSPLIT Operating System (AOS). Based on 33 years' experience, AOS is designed to give coaches, athletes, and timers the most precise timing available. New for 2007 is the Twin Left-Right button operation feature. Whatever your preferences, the watch will let you start, split and reset using the fingers you want. As before, AOS watches have One Button Rapid Split/Reset (2 sec).

"X" CASE

All AX PRO Series Stopwatches are cased in ACCUSPLIT's Exclusive "X" Case. With its distinctive, ergonomic design, the "X" Case is immediately recognizable to anyone involved in elite sports, lauded for its ruggedness, shock-resistance and water-resistance. Special Million Cycle switches operate cleanly, precisely, and reliably each and every time you use the stopwatch.

AX PRO Packages Include:

- AX PRO Series Stopwatch, Lanyard, Battery and Instructions.

Ask
Mr. Stopwatch:

Q. Why buy this series stopwatch?

A. 1. "X" Case means best quality and Million Cycle switches

2. Dedicated stopwatches are easiest to use.

3. ACCUSPLIT support and service

AX705
ACTUAL SIZE

The ACCUSPLIT brand began in 1972 with the first handheld digital stopwatch (recently lauded as one of the "Top 100 Gadgets of All Time"). ACCUSPLIT has built its stopwatch heritage both on technological innovation and on leadership in the sports world. Ambassador Steve Simmons, Vice President of

Sports Marketing and Relationship Management, fosters that leadership in Track and Field. Team leader of the '92 Olympic Track and Field Team, Assistant Manager of the '80 and '84 Olympic teams, and Co-Marshall of the '96 Olympic Games in Atlanta, Simmons is one of only six men in U.S. history to serve on three Olympic staffs. Simmons and ACCUSPLIT also support collegiate Track and Field, hosting the ACCUSPLIT Relay Awards honoring the year's fastest relay teams and coaches at the NCAA Outdoor Championship Meet.

Classic MX Series Professional Stopwatches

The Premier Timing Piece for Elite Level Sports—in our Exclusive, Industry Best Stopwatch Case

ACCUSPLIT Classic MX Series stopwatches are professional timing devices with significantly increased functionality going beyond our tremendously successful Classic X (WOS) Series. We have created an entirely new ACCUSPLIT Operating System (AOS), based on our exclusive technology and 33 years' experience, designed to give coaches, athletes, and timers the most precise timing available. All MX Series stopwatches feature Memories and "Turbo" functions—an ACCUSPLIT exclusive that translates time of an event into a given STRIDE RATE, STROKE RATE, and DUAL SPEED SPLIT. Each stopwatch also includes One Button Rapid Split/Reset (2 sec.), and our No Fail Operating System. Large digits for easy viewing on the field, track, or by the pool add to the appeal of these stopwatches. All are covered by ACCUSPLIT's 5-Year, No Proof of Purchase Warranty.

MX Series hand-held stopwatches are cased in our exclusive "X" Case. The distinctive ergonomic design of the "X" Case is immediately recognizable to anyone involved in elite sports, lauded for its ruggedness, shock-resistance, and water-resistance. Special Million Cycle switches operate cleanly, precisely, and reliably each and every time the stopwatch is used.

The wrist-worn stopwatches in the series give you all the function advantages of the handheld MX Series, plus the convenience of a wristwatch. They feature an added countdown timer with a cycle count. The A925MXTBL even has four modes: Up-Timer, Down-Timer, Down-Up Timer, and Up Stopwatch with Time-in/Time-out. Both models now feature a backlight for the first time, plus a stylish new case and a battery life of 1.5 years.

TIMER SERIES

AE520S

AE520S Tabletop Digital Timer

You'll Love the Large Display and Quality Workmanship!

The AE520S is excellent for use in sports programs, the gym, classroom or any other use where timing is important. It has a timing range of 10 hours. An alarm sounds at a starting point you set while using the countdown or count up function. It has a stopwatch with Cumulative Split and Time-Out functions. The compact design fits easily on a table or desk yet the large, easy-to-read, 1-inch digits can be seen easily from a distance. It has a built-in clock and carries the 5-Year, No Proof of Purchase Warranty.

AE520S Packages Include:

AL530

New! AL530 Jumbo Display Timer/Clock

Introducing our New, Versatile Dual Display Timer for All Timing Needs

The AL530 gives you the ultimate timing flexibility. With a dual display and several timing modes, you can time almost any task! The extra large display digits make the AL530's display easy to read, even from across the room. You'll be surprised at the quality in this timing unit, which is also packed with features. Suitable for table top or wall mounting, the AL530 comes with a slide-out wall mounting bracket (including a double-stick tape square). Naturally, the AL530 is also backed with ACCUSPLIT's exclusive 5-year, No Proof of Purchase Warranty.

Features include:

- Countdown to alarm with internal setting in memory
- Count-up in seconds to 10 hours in lower display, with clock in upper display
- Use Timer 1 or timer 2, or both, simultaneously
- Time-of-day Clock

AL530 Packages Include:

- AL530 timer
- One "AAA" battery
- Wall mounting bracket
- Screws and double stick tape for wall mounting
- Clear and legible instructions for use

TIMER SERIES

G165

G165 Large Display Analog Timer Series

High Quality Analog Timers that are Easily Seen

Precision and ease of use make GraLab™ Timers essential pieces of equipment in laboratories, darkrooms, professional and home kitchens, classrooms, PE classes and everywhere accurate time keeping is essential. You'll have split-second synchronous accuracy for any period from one second to 60 minutes. Ideal for team sports, one-on-one competition, exam, typing and shorthand timing plus many more scholastic and sports timing uses.

Turn on the power switch. Set the desired time with the large knob. A built-in buzzer automatically signals the end of the period. A push button on the top lets you control the buzzer, and a horn or a light plugged into the accessory outlet will gain officials' and participants' attention.

The 6 1/2" easy-to-read white dial has large black numerals that can be read at a glance from a court or playing field. The red numerals let you use the timer as a minutes-and-seconds elapsed time indicator or stopwatch. The case is made of hybrid plastics. It's strong, withstands high impact, resists moisture and is electrically nonconductive. It has a recessed hand grip in the back and rubber base pads. Input voltage is 100-130VAC, 50 or 60Hz (U.S. and Canada). 3-wire plug fits all standard grounded sockets.

G165 Packages Include:
